For each petition listed above, the individual status page summarizes the issues raised by the petitioner, the current status, and the next steps. An open petition is one that has been accepted for review by the petition review board (PRB). An open petition under consideration is one that is being considered for review by the PRB, but has not been formally accepted or rejected.

Timeliness goals are established for each open petition as follows:

- Issue an acknowledgment letter within 35 days of the date of the incoming petition.
- Issue a proposed Director's Decision (DD) within 120 days of the acknowledgment letter.
- Issue a final DD within 45 days of the end of the comment period.

**EDO # OEDO-14-00145 (Petition Age: 15 months)**

---

Facility:	Palisades Nuclear Plant
Licensee Type:	Reactor
Petitioner(s):	Michael Mulligan
Date of Petition:	March 5, 2014
DD To Be Issued by:	Office of Nuclear Reactor Regulation
Proposed DD Issuance:	January 23, 2015
Final DD Issuance:	April 6, 1015
Last Contact with Petitioner:	April 6, 1015
Petition Manager:	Jennivine Rankin
Case Attorney:	Christopher Hair

Issues/Actions Requested:

The petitioner discusses various events at Palisades which have resulted in equipment failures such as breaking of the primary coolant pump impeller vanes, Control Rod Drive Mechanisms (CRDMs) leaks, leaks from Safety Injection Refueling Water Tank etc. His immediate request is to prevent Palisades restart prior to removal of the broken vane. He is also requesting replacement of all CRDMs before plant startup. (The licensee has already taken this action by replacing all CRDMs units).

Background:

- On March 5, 2014, the petitioner filed a petition for enforcement action.
- For a complete summary of NRC actions through June 2014, see the April-June 2014 10 CFR 2.206 status report (Agencywide Documents Access and Management System (ADAMS) Accession No. ML14181B293).
- On July 28, 2014, the PRB met and accepted the petition in part.
- On August 15, 2014, the petition manager informed the petitioner of the PRB's decision and offered the petitioner a second chance to address the PRB.
- On September 3, 2014, the PRB held a second teleconference with the petitioner.
- On September 25, 2014, an acknowledgement letter was issued (ADAMS Accession No. ML14237A726).
- On January 23, 2015, a proposed DD documenting the NRC's response to issues raised in the petition was issued (ADAMS Accession No. ML14338A431).
- On January 29, 2015, and January 30, 2015, the petitioner submitted comments on the proposed DD.
- On March 20, 1015, the OEDO approved an extension until April 30, 2015, to address comments from the petitioner on the proposed DD.

Current Status/Next Steps:

- On April 6, 2015, the NRC issued a final DD (ADAMS Accession No. ML15054A361). All actions on this petition are closed.

Facility:	Cooper Nuclear Station (CNS)
Licensee Type:	Reactor
Petitioner(s):	Thomas Saporito, Saprodani Associates
Date of Petition:	July 3, 2011
DD To Be Issued by:	Office of Nuclear Reactor Regulation
Proposed DD Issuance:	April 15, 2015
Final DD Issuance:	June 3, 2015
Last Contact with Petitioner:	June 3, 2015
Petition Manager:	Fred Lyon
Case Attorney:	Christopher Hair

Issues/Actions Requested:

The petitioner requests that the NRC take escalated enforcement action against the CNS and issue a confirmatory order requiring the licensee to bring CNS to cold shutdown, on the basis that on June 19, 2011, the licensee declared an unusual event in connection with the Missouri River flooding its banks. The petition contends that the installed flood-protection measures and systems and barriers at CNS will not adequately protect the reactor from a full-meltdown scenario; the licensee's station blackout procedures are not sufficient to meet a challenging extended loss of off-site power caused by flooding, natural disasters, or terrorist attacks; the licensee failed to notify the NRC of the declaration of an unusual event within a 1 hour period.

Background:

- On July 3, 2011, the petitioner filed a petition for an enforcement action under 10 CFR 2.206.
- For a complete summary of NRC actions through June 2014, see the April-June 2014 10 CFR 2.206 status report (ADAMS Accession No. ML14181B293).
- The NRC staff conducted an integrated review of Fukushima-related 2.206 petitions to identify opportunities for closure of identified issues, either wholly or in-part.
- On February 24, 2014, the petition manager informed the petitioner that his petition was still under review.
- On July 1, 2014, and September 9, 2014, the petition manager informed the petitioner that the petition was still under review.
- On March 4, 2015, the OEDO granted an extension until May 1, 2015, to issue a proposed DD.
- On March 9, 2015, the petition manager informed the petitioner that a proposed DD was in process.

Current Status/Next Steps:

- On April 15, 2015, the NRC issued a proposed DD (ADAMS Accession No. ML15062A373).
- On June 3, 2015, a final DD was issued (ADAMS Accession No. ML15128A141). All actions on this petition are closed.

Facility:	Fort Calhoun Station, Unit 1
Licensee Type:	Reactor
Petitioner(s):	Thomas Saporito, Saprodani Associates
Date of Petition:	June 26, 2011
DD To Be Issued by:	Office of Nuclear Reactor Regulation
Proposed DD Issuance:	April 15, 2015
Final DD Issuance:	June 3, 2015
Last Contact with Petitioner:	June 3, 2015
Petition Manager:	Fred Lyon
Case Attorney:	Christopher Hair

Issues/Actions Requested:

The petitioner requests that the NRC take escalated enforcement action against the Omaha Public Power District and Fort Calhoun Station, Unit 1. The basis for the petition is that on June 26, 2011, a 2,000-foot berm at Fort Calhoun Station, Unit 1, collapsed from the forces of flood waters. The petitioner states that the licensee's installed flood-protection measures and systems and barriers at Fort Calhoun Station, Unit 1, are insufficient to adequately protect the reactor from a full-meltdown scenario and that the licensee's station blackout procedures are not sufficient to meet the challenging extended loss of off-site power caused by floods and other natural disasters or terrorist attacks.

Background:

- On June 26, 2011, the petitioner filed a petition for an enforcement action under 10 CFR 2.206.
- For a complete summary of NRC actions through December 2013, see the October-December 2013 10 CFR 2.206 status report (ADAMS Accession No. ML14006A280)
- The NRC staff conducted an integrated review of Fukushima-related 2.206 petitions to identify opportunities for closure of identified issues, either wholly or in-part.
- On February 24, 2014, the petition manager informed the petitioner that his petition was still under review.
- On July 1, 2014, and September 9, 2014, the petition manager informed the petitioner that the petition was still under review.
- On March 4, 2015, the OEDO granted an extension until May 1, 2015, to issue a proposed DD.
- On March 9, 2015, the petition manager informed the petitioner that a proposed DD was in process.

Current Status/Next Steps:

- On April 15, 2015, the NRC issued a proposed DD (ADAMS Accession No. ML15062A373).
- On June 3, 2015, a final DD was issued (ADAMS Accession No. ML15128A141). All actions on this petition are closed.

---

Facility:	Fort Calhoun Station
Licensee Type:	Reactor
Petitioner(s):	Sierra Club
Date of Petition:	June 21, 2012
DD To Be Issued by:	Office of Nuclear Reactor Regulation
Proposed DD Issuance:	April 15, 2015
Final DD Issuance:	June 3, 2015
Last Contact with Petitioner:	June 3, 2015
Petition Manager:	Fred Lyon
Case Attorney:	Patricia Jehle

Issues/Actions Requested:

The petitioner requests that the license for Fort Calhoun be revoked because the licensee has failed to correct problems identified years ago. The petitioner cites a history of various violations dating from 1992 to 2012, including several gleaned from inspection reports. The petitioner also cites issues currently under NRC review related to containment internal structures, electrical penetrations, and upstream dam failures.

Background:

- On June 21, 2012, the petitioner filed a petition for an enforcement action under 10 CFR 2.206.
- For a complete summary of NRC actions through March 2013, see the March 2013 monthly 10 CFR 2.206 status report (ADAMS Accession No. ML13087A288).
- On April 26, 2013, the OEDO approved an extension for issuing an acknowledgement letter until May 31, 2013.
- On May 23, 2013, the petition manager issued an acknowledgement letter (ADAMS Accession No. ML13092A248) accepting the petition in part.
- On February 24, 2014, and October 1, 2014, the petition manager informed the petitioner that his petition was still under review.
- On March 4, 2015, the OEDO granted an extension until May 1, 2015, to issue a proposed DD.
- On March 9, 2015, the petition manager informed the petitioner that a proposed DD was in process.

Current Status/Next Steps:

- On April 15, 2015, a proposed DD was issued (ADAMS Accession No. ML15063A066).
- On June 3, 2015, a final DD was issued (ADAMS Accession No. ML15128A349). All actions on this petition are closed.

Facility:	U.S. Nuclear Power Reactors (Related to Japan Earthquake)
Licensee Type:	Reactor
Petitioner(s):	Thomas Saporito, Saprodani Associates
Date of Petition:	March 12, 2011
DD To Be Issued by:	Office of Nuclear Reactor Regulation
Proposed DD Issuance:	April 8, 2015
Final DD Issuance:	June 17, 2015
Last Contact with Petitioner:	June 17, 2015
Petition Manager:	Mahesh Chawla
Case Attorney:	Michael Clark

Issues/Actions Requested:

The petitioner requests that the NRC issue an order for the immediate shutdown of all nuclear power reactors in the United States that are known to be located on or near an earthquake fault line. Actions requested relate to hardened vents and facility seismic qualifications.

Background:

- On March 12, 2011, the petitioner filed a petition for an enforcement action under 10 CFR 2.206.
- For a complete summary of NRC actions through December 2013, see the October-December 2013 10 CFR 2.206 status report (ADAMS Accession No. ML14006A280).
- The NRC staff conducted an integrated review of Fukushima-related 2.206 petitions to identify opportunities for closure of identified issues, either wholly or in-part.
- On February 20, 2014, the petition manager informed the petitioner that his petition is still under review.
- On April 24, 2014, and June 26, 2014, the petition manager informed the petitioner that his petition is still under review.
- On August 20, 2014, the petition manager informed the petitioner that his petition is still under review.
- On December 8, 2014, the petition manager informed the petitioner that his petition is still under review.
- On February 5, 2015, the petition manager informed the petitioner that a proposed DD was in process with an unchanged target issuance date of June 30, 2015.

Current Status/Next Steps:

- On April 8, 2015, a proposed DD was issued documenting the NRC's response to issues raised in the petition (ADAMS Accession No. ML13018A159).
- On June 17, 2015, a final DD was issued (ADAMS Accession No. ML1511A411). All actions on this petition are closed.

Facility:	General Electric (GE) Boiling Water Reactor (BWR) Mark I and Mark II Units
Licensee Type:	Reactor
Petitioner(s):	David Lochbaum, Union of Concerned Scientists
Date of Petition:	July 29, 2011
DD To Be Issued by:	Office of Nuclear Reactor Regulation
Proposed DD Issuance:	April 17, 2015
Final DD Issuance:	TBD
Last Contact with Petitioner:	April 16, 2015
Petition Manager:	John Lamb
Case Attorney:	Christopher Hair

Issues/Actions Requested:

The petitioner requests that the NRC issue a demand for information to the licensees of GE BWRs with Mark I and Mark II containment designs on how the facility complies with General Design Criterion 44, "Cooling Water," of Appendix A, "General Design Criteria for Nuclear Power Plants," to 10 CFR Part 50, and 10 CFR 50.49, "Environmental qualification of electric equipment important to safety for nuclear power plants," with respect to spent fuel pools.

Background:

- On July 29, 2011, the petitioner filed a petition for an enforcement action under 10 CFR 2.206.
- For a complete summary of NRC actions through December 2013, see the October-December 2013 10 CFR 2.206 status report (ADAMS Accession No. ML14006A280).
- The NRC staff conducted an integrated review of Fukushima-related 2.206 petitions to identify opportunities for closure of identified issues, either wholly or in-part.
- On February 27, 2014, and May 7, 2014, the petition manager informed the petitioner that his petition is still under review.
- On September 4, 2014, the petition manager informed the petitioner that his petition was still under review.
- On November 18, 2014, the petition manager informed the petitioner that his petition was still under review.

Current Status/Next Steps:

- On April 16, 2015, the OEDO approved an extension until October 30, 2015, to issue a final DD.
- On April 17, 2015, a proposed DD was issued documenting the NRC's response to issues raised in the petition (ADAMS Accession No. ML12215A314). The petitioner and licensee will receive an opportunity to comment on the proposed DD. The target issuance date of the final DD is 75 days after the issuance date of the proposed DD.

## OPEN PETITION

**EDO # G20110757 (Petition Age: 44 months)**

---

Facility:	North Anna Nuclear Plant, Units 1 and 2
Licensee Type:	Reactor
Petitioner(s):	Beyond Nuclear (Joint Petitioners)
Date of Petition:	October 20, 2011
DD To Be Issued by:	Office of Nuclear Reactor Regulation
Proposed DD Issuance:	April 17, 2015
Final DD Issuance:	TBD
Last Contact with Petitioner:	April 17, 2015
Petition Manager:	Venkataiah Sreenivas
Case Attorney:	Mauri Lemoncelli

### Issues/Actions Requested:

In the wake of the August 23, 2011, earthquake at the North Anna Nuclear Plant, which exceeded the design basis earthquake peak ground acceleration for the plant, and for reasons described in the petition, the petitioners request suspension of the operating license and restart contingent upon specific actions listed in the petition.

### Background:

- On October 20, 2011, the petitioner filed a petition for an enforcement action under 10 CFR 2.206.
- For a complete summary of NRC actions through April 2013, see the April 2013 monthly 10 CFR 2.206 status report (ADAMS Accession No. ML13122A109).
- On June 25, 2013, the OEDO approved an extension until December 1, 2014, to issue a proposed DD because some of the requested actions are currently undergoing NRC review as part of the lessons-learned from the Fukushima event.
- On June 25, 2013, the petition manager informed the petitioner that the petition is still under review and the current date for a proposed DD has been extended to December 1, 2014.
- On August 27, 2013, October 29, 2013, February 27, 2014, June 25, 2014, September 9, 2014, and December 22, 2014, the petition manager informed the petitioner that the petition is still under review and the current date for a proposed DD is December 1, 2014.
- On December 29, 2014, the OEDO granted an extension until April 1, 2015, to issue a proposed DD.

### Current Status/Next Steps:

- On April 2, 2015, the OEDO granted an extension until August 3, 2015, to issue a final DD.
- On April 17, 2015, the NRC issued a partial proposed DD covering requests not addressed in an earlier partial proposed DD (ADAMS Accession No. ML14311A616). The petitioner and licensee will receive an opportunity to comment on the proposed DD. The target issuance date of the final DD is 75 days after the issuance date of the proposed DD.

## OPEN PETITION

**EDO # G20120891 (Petition Age: 36 months)**

---

Facility:	SONGS, Units 2 and 3
Licensee Type:	Reactor
Petitioner(s):	Friends of the Earth (FOE)
Date of Petition:	June 18, 2012
DD To Be Issued by:	Office of Nuclear Reactor Regulation
Proposed DD Issuance:	February 27, 2015
Final DD Issuance:	TBD
Last Contact with Petitioner:	June 29, 2015
Petition Manager:	Thomas Wengert
Case Attorney:	Christopher Hair

### Issues/Actions Requested:

The petitioner requests that the NRC order Southern California Edison (SCE) to submit a license amendment application for the design and installation of the SONGS, Units 2 and 3, replacement steam generators. FOE also requests that the NRC suspend SCE's licenses until they are amended. In short, as the basis for the petition request, FOE states that SCE violated 10 CFR 50.59 when it replaced its steam generators in 2010 and 2011 without first obtaining NRC approval of the design changes via a license amendment.

### Background:

- On June 18, 2012, the petitioner submitted a request under 10 CFR 2.309, stating the licensee was required to obtain a license amendment when it replaced the original steam generators at SONGS. In its order (CLI-12-20) signed November 8, 2012, ruling on the petition, the Commission referred this claim to the staff to process.
- For a complete summary of NRC actions through June 2014, see the April-June 2014 10 CFR 2.206 status report (ADAMS Accession No. ML14181B293).
- On September 10, 2014, the OEDO approved an extension to issue a proposed DD until February 27, 2015, owing to the complexity of issues raised in the petition.
- On September 23, 2014, the petition manager informed the petitioner that a new petition manager had been assigned and that the target date for a proposed DD was February 27, 2015.
- On December 18, 2014, the PRB met internally to align on the path forward for the petition review.
- On December 23, 2014, the petition manager informed the petitioner that his petition was still under review.
- On February 27, 2015, a proposed DD was issued (ADAMS Accession No. ML15020A167).
- On March 27, 2015, the petitioner submitted comments on the proposed DD.

### Current Status/Next Steps:

- On April 14, 2015, the PRB met to review the petitioner's comments on the proposed DD.
- On May 7, 2015, the OEDO approved an extension to issue a final DD until July 30, 2015.
- On June 29, 2015, the petition manager informed the petitioner that the target date for a final DD is July 30, 2015.

## **OPEN PETITION**

**EDO # G20130211 (Petition Age: 27 months)**

---

Facility:	Vermont Yankee Nuclear Power Station, Pilgrim Nuclear Power Station and Fitzpatrick Nuclear Power Plant
Licensee Type:	Reactor
Petitioner(s):	Alliance for a Green Economy et al.
Date of Petition:	March 18, 2013
DD To Be Issued by:	Office of Nuclear Reactor Regulation
Proposed DD Issuance:	May 1, 2015
Final DD Issuance:	TBD
Last Contact with Petitioner:	March 27, 2015
Petition Manager:	Richard Guzman
Case Attorney:	Patricia Jehle

### Issues/Actions Requested:

The petitioner requests that the NRC immediately suspend the operating licenses of the Vermont Yankee Nuclear Power Station and Fitzpatrick Nuclear Power Plant, stating that Entergy, the licensee, no longer meets the financial qualifications requirements to possess the licenses and operate the plants. The petitioner also requested that the NRC begin an investigation to determine whether the operating license for Pilgrim must also be suspended.

### Background:

- On March 18, 2013, the petitioner filed a petition for enforcement action.
- For a complete summary of NRC actions through December 2013, see the October-December 2013 10 CFR 2.206 status report (ADAMS Accession No. ML14006A280).
- On May 16, 2014, the OEDO approved an extension until September 30, 2014, to develop a DD owing to the need to obtain and evaluate cost and revenue projections from the licensees.
- On June 2, 2014, the NRC issued a voluntary request for information to the licensee (ADAMS Accession No. ML13357A024).
- On July 2, 2014, the petition manager informed the petitioner that the petition was still under review.
- On September 12, 2014, the OEDO approved an extension until March 2, 2015, to issue a proposed DD.
- On October 15, 2014, the petitioner supplemented his petition.
- On March 4, 2015, the OEDO approved an extension until May 1, 2015, to issue a proposed DD.

### Current Status/Next Steps:

- On March 27, 2015, a proposed DD documenting the NRC's response to issues raised in the petition was issued (ADAMS Accession No. ML15040A161). The petitioner and licensee will receive an opportunity to comment on the proposed DD. The target issuance date of the final DD is 75 days after the issuance date of the proposed DD.

## **OPEN PETITION**

***EDO # LTR-14-0412 (Petition Age: 12 months)***

---

Facility:	Turkey Point Nuclear Generating Station
Licensee Type:	Reactor
Petitioner(s):	Thomas Saporito, Saprodani Associates
Date of Petition:	July 18, 2014
DD To Be Issued by:	NRR
Proposed DD Issuance:	April 15, 2015
Final DD Issuance:	TBD
Last Contact with Petitioner:	May 29, 2015
Petition Manager:	Audrey Klett
Case Attorney:	James Maltese

### Issues/Actions Requested:

The petitioner requested that the NRC take enforcement action to require the licensee to take certain actions regarding the rise in temperature of cooling water in the canals used to cool the reactors.

### Background:

- On July 18, 2014, the petitioner filed a petition for enforcement action.
- For a complete summary of NRC actions through September 2014, see the July–September 2014 10 CFR 2.206 status report (ADAMS Accession No. ML14274A475).
- On October 15, 2014, the PRB met to make an initial recommendation on the petition.
- On November 3, 2014, the petition manager informed the petitioner that his petition was still under review.
- On December 2, 2014, the petition manager informed the petitioner that the PRB recommended accepting the petition in part.
- On December 5, 2014, the petition manager informed the petitioner of details of the PRB recommendation.
- On December 19, 2014, the petitioner informed the petition manager that he did not want to address the PRB via meeting or teleconference about its initial recommendation.
- On December 29, 2014, the OEDO approved an extension to issue final DD until September 30, 2015, owing to the time needed to complete an inspection of the licensee's root cause analysis.
- On January 30, 2015, an acknowledgement letter (ADAMS Accession No. ML14349A597) was issued, accepting the petition in part for review.
- On March 30, 2015, the petition manager informed the petitioner that his petition is still under review.

### Current Status/Next Steps:

- On April 15, 2015, the NRC issued a proposed DD (ADAMS Accession No. ML15063A066). The petitioner and licensee will receive an opportunity to comment on the proposed DD.
- On May 29, 2015, the petition manager informed the petitioner that the target date to complete the petition review was September 30, 2015.

**OPEN PETITION UNDER CONSIDERATION**

***EDO # G20120172 (Petition Age: 40 months)***

---

Facility:	James A. FitzPatrick Nuclear Power Plant (FitzPatrick)
Licensee Type:	Reactor
Petitioner(s):	Beyond Nuclear et al. (Joint Petitioners)
Date of Petition:	March 9, 2012
DD To Be Issued by:	Office of Nuclear Reactor Regulation
Proposed DD Issuance:	TBD
Final DD Issuance:	TBD
Last Contact with Petitioner:	June 29, 2015
Petition Manager:	Alexander Chereskin
Case Attorney:	Patricia Jehle

Issues/Actions Requested:

The joint petitioners requested that the FitzPatrick operating license be immediately suspended because they believe the operator relies on non-conservative and wrong assumptions for the analysis of the capability of FitzPatrick's pre-existing ductwork containment vent system. The joint petitioners requested that the suspension of the operating license be in effect pending final resolution of a public challenge to the adequacy of the pre-existing vent line in light of the Fukushima Dai-ichi nuclear accident. The joint petitioners did not seek or request that FitzPatrick operators now install the Direct Torus Vent System as it is demonstrated to have experienced multiple failures to mitigate the severe nuclear accidents at Fukushima Dai-ichi.

Background:

- On March 9, 2012, the petitioner filed a petition for an enforcement action under 10 CFR 2.206.
- For a complete summary of NRC actions through September 2014, see the July–September 2014 10 CFR 2.206 status report (ADAMS Accession No. ML14274A475).
- The NRC staff conducted an integrated review of Fukushima-related 2.206 petitions to identify opportunities for closure of identified issues, either wholly or in-part.
- On December 29, 2014, the petition manager informed the petitioner that the PRB is still waiting for the Freedom of Information Act (FOIA) process regarding FOIA 2013-0010 to be completed.
- On February 5, 2015, the petition manager informed the petitioner that FOIA 2013-0010 was complete and offered the petitioner a second public meeting or teleconference with the PRB.

Current Status/Next Steps:

- On April 2, 2015, the petition manager offered the petitioner a chance to address the PRB.
- On June 29, 2015, a second public meeting was held with the petitioner.
- The next step is for the PRB to determine its final recommendation.

---

Facility:	Palisades Nuclear Plant
Licensee Type:	Reactor
Petitioner(s):	Billie Garde
Date of Petition:	August 11, 2014
DD To Be Issued by:	NRR
Proposed DD Issuance:	TBD
Final DD Issuance:	TBD
Last Contact with Petitioner:	June 12, 2015
Petition Manager:	Jennivine Rankin
Case Attorney:	David Cylkowski

Issues/Actions Requested:

The petitioner requested that the NRC take enforcement action regarding improving the work environment and safety culture in the licensee's security department, including outsourcing the security department and immediately changing the management.

Background:

- On August 11, 2014, the petitioner filed a petition for enforcement action.
- On August 19, 2014, the PRB met and rejected the request for immediate actions.
- On August 21, 2014, the petition manager informed the petitioner that the PRB met and rejected the request for immediate actions and offered a teleconference or public meeting, which the petitioner accepted.
- On September 3, 2014, the petitioner confirmed a public meeting date.
- On September 10, 2014, the OEDO approved an extension to issue a closure letter or acknowledgement letter until February 27, 2015, to complete the evaluation process.
- On September 24, 2014, the petition manager outlined, by email, the format of the public meeting with the petitioner.
- On October 10, 2014, the petitioner cancelled the teleconference which had subsequently been requested in lieu of a public meeting.
- On November 21, 2014, the petitioner provided a written supplement to the original petition.
- On February 4, 2015, the OEDO approved an extension until May 29, 2015, to provide sufficient time to complete process activities and issue a letter to the petitioner.

Current Status/Next Steps:

- On May 18, 2015, the petition manager informed the petitioner of the PRB's initial recommendation. The petitioner declined the offer to address the PRB a second time, but asked for an extension until June 9, 2015, to supplement the petition.
- On June 2, 2015, the OEDO approved an extension until August 31, 2015, to provide sufficient time to complete process activities and issue a letter to the petitioner.
- On June 12, 2015, the petitioner provided a written supplement of the petition.
- On June 16, 2015, the PRB met to make its final recommendation on the petition, considering the supplement.
- The next step is for the PRB to issue a letter to the petitioner.

Facility:	Pilgrim Nuclear Power Station
Licensee Type:	Reactor
Petitioner(s):	Mary Lampert
Date of Petition:	September 16, 2014
DD To Be Issued by:	NRR
Proposed DD Issuance:	TBD
Final DD Issuance:	TBD
Last Contact with Petitioner:	June 9, 2015
Petition Manager:	Richard Guzman
Case Attorney:	Emily Monteith

Issues/Actions Requested:

The petitioner requested that the NRC take enforcement action regarding the assurance of sufficient land-based security at Pilgrim.

Background:

- On September 16, 2014, the petitioner filed a petition for enforcement action.
- On November 12, 2014, the petition manager offered the petitioner a chance to address the PRB.
- On December 3, 2014, the petition manager discussed teleconference dates with the petitioner.
- On February 25, 2015, the PRB held a teleconference with the petitioners.

Current Status/Next Steps:

- On May 5, 2015, the PRB met to make an initial decision on the petition.
- On May 19, 2015, the petition manager informed the petitioner of the initial decision to reject the petition.
- On June 4, 2015, the OEDO approved an extension until October 30, 2015, to provide sufficient time to complete process activities and issue a letter to the petitioner.
- On June 9, 2015, a second teleconference was held with the petitioner.
- The next step is to issue a letter to the petitioner.

Facility:	Indian Point Nuclear Generating Unit 2
Licensee Type:	Reactor
Petitioner(s):	Paul Blanch
Date of Petition:	October 15, 2014
DD To Be Issued by:	NRR
Proposed DD Issuance:	TBD
Final DD Issuance:	TBD
Last Contact with Petitioner:	June 25, 2015
Petition Manager:	Douglas Pickett
Case Attorney:	David Cylkowski

Issues/Actions Requested:

The petitioner requested enforcement action against Entergy regarding their 10 CFR 50.59 site hazards analysis associated with the proposed Spectra Energy 42-inch diameter natural gas pipeline that will traverse a portion of the owner controlled property at the Indian Point site. The petitioner requests violations against the licensee because he contends that: (1) the 10 CFR 50.59 analysis is inaccurate and incomplete, (2) the 10 CFR 50.9 analysis includes inaccurate information, and (3) the licensee's contractor was not qualified to perform the supporting analysis concerning Appendix B to Part 50. The petitioner also requests that multiple demands for information be issued and an independent analysis of the impact of the proposed natural gas pipeline be performed.

Background:

- During October 2014, the petitioner began submitting concerns regarding the pipeline to Region 1 under a separate NRC process.
- For a complete summary of NRC actions through March 2015, see the January–March 2015 10 CFR 2.206 status report (ADAMS Accession No. ML15097A477).

Current Status/Next Steps:

- On April 28, 2015, the petition manager informed the petitioner of the PRB's initial recommendation to reject the petition.
- On May 2, 2015, the petitioner requested a second opportunity to make a presentation before the PRB.
- On May 5, 2015, the petitioner submitted letters to Senators Schumer, Gillibrand, Congresswoman Lowey, and State Assemblywoman Galef requesting that a second PRB meeting be held near Indian Point site.
- On June 25, 2015, the petitioner and the petition manager exchanged emails about the petitioner's FOIA request.
- The next step is to conduct the second presentation before the PRB, scheduled for July.

Facility:	St. Lucie Plant Unit 2
Licensee Type:	Reactor
Petitioner(s):	Southern Alliance for Clean Energy (SACE)
Date of Petition:	December 19, 2014
DD To Be Issued by:	NRR
Proposed DD Issuance:	TBD
Final DD Issuance:	TBD
Last Contact with Petitioner:	February 24, 2015
Petition Manager:	Alexander Chereskin
Case Attorney:	Emily Monteith

Issues/Actions Requested:

SACE originally requested a hearing (dated March 10, 2014) regarding St. Lucie's Unit 2 steam generators. SACE did not ask for any enforcement actions against the licensee. Rather, SACE argued that the staff's inspection and oversight of the replacement steam generators constituted a de facto license amendment.

Background:

- On December 19, 2014, the Commission denied SACE's request and referred it to OEDO for dispositioning under 2.206 (Memorandum and Order CLI-14-11).
- On January 16, 2015, the PRB acknowledged receipt of the petition and offered the petitioner a chance to address the PRB.
- On February 4, 2015, the OEDO approved an extension until April 20, 2015, to provide sufficient time to complete process activities and issue a letter to the petitioner.
- On February 24, 2015, the petitioner informed the petition manager that SACE would not be addressing the PRB.
- On March 25, 2015, the PRB met to make an initial recommendation on the petition.

Current Status/Next Steps:

- On April 16, 2015, the OEDO approved an extension until June 19, 2015, to issue a letter to the petitioner.
- On April 29, 2015, the PRB met again to make an initial recommendation on the petition.
- On June 3, 2015, the OEDO approved an extension until September 30, 2015, to provide sufficient time to complete process activities and issue a letter to the petitioner.
- The next step is to receive management approval of the PRB's recommendation.

Facility:	Vermont Yankee Nuclear Power Station Kewaunee Nuclear Power Plant
Licensee Type:	Reactor
Petitioner(s):	Michael Mulligan
Date of Petition:	March 26, 2015
DD To Be Issued by:	NRR
Proposed DD Issuance:	TBD
Final DD Issuance:	TBD
Last Contact with Petitioner:	June 24, 2015
Petition Manager:	Stephen Koenick
Case Attorney:	Patricia Jehle

Issues/Actions Requested:

The petitioner requests emergency inspections of reactor vessels of the Kewaunee Nuclear Power Plant and Vermont Yankee Nuclear Power Station in view of cracks being found in the Belgium Doel 3 and Tihange 2 nuclear plants. Further, the petitioner requests that if serious flaws are discovered, that vessels in all U.S. plants be inspected within six months.

Background:

- On March 26, 2015, the petitioner filed a petition for an enforcement action under 10 CFR 2.206.

Current Status/Next Steps:

- On April 28, 2015, the petition manager acknowledged receipt of the petition and offered the petitioner an opportunity to address the PRB.
- On May 8, 2015, the OEDO approved an extension until July 25, 2015, to issue a letter to the petitioner.
- On May 19, 2015, the PRB held a teleconference with the petitioner.
- On June 24, 2015, the petitioner manager informed the petitioner that his petition was being accepted and established that the petitioner did not wish to address the PRB a second time.
- The next step is to issue an acknowledgement letter to the petitioner.

Facility:	All NRC licensees
Licensee Type:	All
Petitioner(s):	Thomas Saporito
Date of Petition:	March 16, 2015
DD To Be Issued by:	NRR
Proposed DD Issuance:	TBD
Final DD Issuance:	TBD
Last Contact with Petitioner:	June 11, 2015
Petition Manager:	Perry Buckberg
Case Attorney:	Patricia Jehle

Issues/Actions Requested:

The petitioner requests that the NRC order licensees to assess their facilities regarding the risk of seismic events stemming from fracking.

Background:

- On March 16, 2015, the petitioner filed a petition for an enforcement action under 10 CFR 2.206.

Current Status/Next Steps:

- On May 7, 2015, the petition manager acknowledged receipt of the petition and offered the petitioner an opportunity to address the PRB.
- On May 26, 2015, the OEDO approved an extension to August 28, 2015, to issue a letter to the petitioner.
- On June 11, 2015, the petition manager informed the petitioner that a teleconference was to be scheduled in July.
- The next step is for the petitioner to address the PRB.

Facility:	Columbia Generating Station
Licensee Type:	Reactor
Petitioner(s):	Charles Johnson
Date of Petition:	May 13, 2015
DD To Be Issued by:	NRR
Proposed DD Issuance:	TBD
Final DD Issuance:	TBD
Last Contact with Petitioner:	June 12, 2015
Petition Manager:	Margaret Watford
Case Attorney:	Patricia Jehle

Issues/Actions Requested:

The petitioner requests that the NRC modify the Columbia Generating Station's (CGS) operating license and/or suspend the restart of the CGS until a known crack in a riser weld on the jet pumps is repaired.

Background:

- On May 13, 2015, the petitioner filed a petition for an immediate enforcement action under 10 CFR 2.206.

Current Status/Next Steps:

- On May 22, 2015, the petition manager acknowledged receipt of the petition and offered the petitioner an opportunity to address the PRB.
- On May 26, 2015, the PRB met to make a decision on the request to prevent restart of the facility. The PRB decided to reject the request to immediately suspend the restart of CGS.
- On June 1, 2015, the petition manager informed the petitioner that his request for immediate action was rejected.
- On June 12, 2015, the PRB held a teleconference with the petitioner.
- The next step is for the PRB to meet to make an initial recommendation on the petition.

Facility:	Pilgrim Nuclear Power Station
Licensee Type:	Reactor
Petitioner(s):	Mary Lampert
Date of Petition:	June 11, 2015
DD To Be Issued by:	NRR
Proposed DD Issuance:	TBD
Final DD Issuance:	TBD
Last Contact with Petitioner:	June 11, 2015
Petition Manager:	Richard Guzman
Case Attorney:	Emily Monteith

Issues/Actions Requested:

The petitioner requests that the NRC evaluate the adequacy of Pilgrim's Radiological Emergency Plan and Procedure in consultation with the local emergency management directors, department heads, and public.

Background:

- On June 11, 2015, the petitioner filed a petition for an enforcement action under 10 CFR 2.206.

Current Status/Next Steps:

- On June 11, 2015, the petition manager acknowledged receipt of the petition and offered the petitioner an opportunity to address the PRB.
- The next step is to schedule a telecom with the petitioner and the PRB.
