Radiation Division
Connecticut Dept. of Energy and Environmental Protection
79 Elm Street
Hartford, CT 06106

SUBJECT: UNITED STATES NRC QUARTERLY REPORT
GENERAL LICENSE #: 06-02135-12G
REPORT PERIOD: January 1st – March 31st 2015

AMENDMENT TO PREVIOUSLY SUBMITTED INFORMATION

In keeping with the requirements set forth under the US Nuclear Regulatory Commission, 10 C.F.R., the attached report is submitted for the above subject period for *material transferred under our general license*.

The general license noted above pertains to an Electron Capture Detector (ECD) which is utilized in a PerkinElmer Gas Chromatograph. The radioactive material Ni63, has a maximum activity of (15) millicuries.

We are resubmitting the report for Connecticut, as we inadvertently included two transfers (totaling two ECD devices) on the previously submitted 1st QTR 2015 report which were actually transferred to other states, NOT Connecticut.

If you should have any questions or concerns, please do not hesitate to contact me.

Regards,

Elizabeth Cantas | Environmental, Health and Safety Manager | Radiation Safety Officer
PerkinElmer | For the Better
