## General Comment

Please deny the license application. I am a full-time resident of Florida and I am opposed to any additional nuclear reactors in Florida. This project is too close to Biscayne Bay and Biscayne National Park. It is also too close to the Everglades, another incredibly unique place that is a national treasure. In addition, it could harm our clean water supply. If there is a hurricane nearby, it will be a huge disaster. Thank you for considering my comments.
