

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
WASHINGTON, D.C. 20555-0001

July 1, 2015

(b) (6)

IN RESPONSE REFER TO
FOIA/PA 2015-0046A
(FOIA/PA 2015-0224)

Dear Mr. Tarver,

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I am responding to your letter dated May 22, 2015 in which you appealed the agency's April 16, 2015, decision related to your April 2, 2015 Freedom of Information Act/Privacy Act (FOIA/PA) request (FOIA/PA 2015-0224). In the May 22, 2015, letter you appealed the adequacy of the search conducted by the NRC.

The NRC conducted a search for the records responsive to your request, and issued to you the locations where the records were already publicly available. Your appeal misinterpreted the final response letter, and perceived the response as a denial of your request "for being late." No denial of your request occurred, and the locations of the records you requested, released in their entirety, were provided to you.

This is NRC's final decision. As set forth in the FOIA (5 U.S.C. 552(a)(4)(B)), judicial review of this decision is available in a district court in the United States in the district in which you reside or have your principal place of business. Judicial review can also be had in the district in which the agency's records are situated or in the District of Columbia.

The 2007 FOIA amendments created the Office of Government Information Services (OGIS) to offer mediation services to resolve disputes between FOIA requesters and Federal agencies as a non-exclusive alternative to litigation. Using OGIS services does not affect your right to pursue litigation.
