JUL 23 1970

Mr. Edward J. Bauser
 Executive Director
 Joint Committee on Atomic Energy
 Congress of the United States

Dear Mr. Bauser:

I am pleased to provide the Committee with a copy of the enclosed environmental report prepared by the Duke Power Company on the environmental considerations under the National Environmental Policy Act relating to its application for the proposed Oconee Nuclear Station Units 1, 2, and 3.

This report has been prepared by the applicant at our request under our revised statement of policy on implementation of the National Environmental Policy Act which was forwarded to the Committee on June 1, 1970. A notice of the availability of the report and request for comments from State and local agencies has been sent to the Office of the Federal Register for filing and publication (copy enclosed). A request for comments also has been sent to those applicable Federal agencies specified in the Council on Environmental Quality's memorandum of June 3, 1970, and a copy of the report has been forwarded to the Council.

After we have received the comments of the Federal, State, and local agencies, we will prepare a detailed environmental statement, including a discussion of any problem or objections raised and the disposition thereof, and forward a copy of the statement to the Committee.

Sincerely,

(signed) Harold L. Price

Harold L. Price
 Director of Regulation
