Gentlemen:

We have reviewed the proposed changes to the Oconee Nuclear Station operator requalification program submitted on September 30, 1976. Specifically, these changes are as follows:

1. Additional activities are enumerated in which backup licensees will participate to maintain their proficiency, and
2. the required participation time has been decreased from 4 hours per month to 4 hours every 2 months.

We have determined that these changes are acceptable provided that the backup licensees continue to participate in all other requalification program requirements.

Sincerely,  
ORIGINAL SIGNED BY  
P. F. COLLINS

Paul F. Collins, Chief  
Operator Licensing Branch  
Division of Project Management
