REMARKS: IMC 0630, 'Analysis of the Impact of Noncompliance with Physical Security Requirements,' has been deleted. The content is dated and no longer applicable. IMC 0610 and IMC 0612 negate the need for IMC 0630.

IP 88015, "Nuclear Criticality Safety," has been revised to combine IP 88015, IP 88016 and IP 88017 into one procedure. This will help to streamline, simplify, and generalize this procedure to be applicable to all fuel cycle facilities and also be consistent with licensing guidance, as well as incorporate lessons learned from operating experience.
