Subject: Cimarron Site – Proposed Groundwater Sampling for Isotopic Plutonium
Docket No. 70-025; License No. SNM-928

Dear Mr. Lux:

Thank you for your letter dated July 3, 2015 requesting funding from Task 6, “Unanticipated Work”, for ground-water sampling and analysis from Monitor Wells 1331 and 1377 for isotopic plutonium.

The DEQ concurs with this request, since no ground-water samples from down-gradient of the contaminated soil excavation under the Plutonium Building were analyzed for plutonium. If you have questions or comments, please contact me by telephone at 405-702-5132, or by email at j.paul.davis@deq.ok.gov.

Sincerely,
