Attention: Mr. R. W. Reid, Chief
Operating Reactors Branch No. 4

Subject: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

Dear Sir:

In a letter dated February 1, 1978, a revision to the Oconee Nuclear Station Technical Specifications was proposed to modify sections of the Auxiliary Electrical Systems and Emergency Power Periodic Testing Technical Specifications, Specifications 3.7 and 4.6. Subsequent to this, and in a letter dated June 12, 1978, a revision to Specification 4.6.2 of the Technical Specifications was proposed. In a letter dated October 31, 1978, information was provided to supplement the February 1, 1978 submittal.

As a result of subsequent discussions with the staff, several changes to these Specifications were agreed upon. These changes have been incorporated in the attached pages which are provided as a supplement to the earlier submittals.

Inasmuch as these changes supplement earlier submittals, no additional license fees are provided.

Very truly yours,

William O. Parker Jr.
