Gentlemen:

By letter dated May 27, 1982, the Division of Licensing (DL) staff approved your application dated February 1, 1982, and issued Amendment Nos. 112, 112, and 109 to Facility Operating License Nos. DPR-38, DPR-47, and DPR-55. This application requested deletion of certain nonradiological water quality surveillance requirements from the Technical Specifications for the Oconee Nuclear Station, Units 1, 2 and 3. A Class III fee (\$4,000) and two Class II fees (\$800) were remitted with your application pursuant to 10 CFR 170.22.

It has been determined that fees should not be charged for deletion of non-radiological water quality conditions in cases where licensees have an effective NPDES permit. On this basis, we have concluded that an exemption, pursuant to 10 CFR 170.11(b), from the fee requirement is authorized by law and such exemption is otherwise in the public interest and is hereby granted for your February 1, 1982 application. Therefore, we have concurrently authorized the Division of Accounting and Finance to refund the \$4,800 paid with your application. Refunds are generally processed within a two-week period.

Sincerely,

Signed, G. James Holloway, Jr.
