DUKE POWER

January 4, 1993

U.S. Nuclear Regulatory Commission
Attention Document Control Desk
Washington, DC 20555

Subject: Duke Power Company
Oconee Nuclear Station
Docket No. 50-269, 270, 287
Inservice Testing Program, Revision 20
Third Inspection Interval

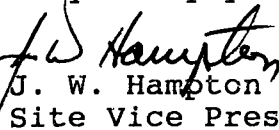

Pursuant to 10CFR 50.55a, attached for your information is the latest IST Program Manual for Oconee Nuclear Station. A summary of the major changes is provided to assist in identifying the changes made which vary from revision 19 submitted to you on May 27, 1992.

On August 10, 1992 a revision to Relief Request # 4 concerning HP-101 and 102 was submitted to NRC. Although the attached IST Program Manual modified Relief Request # 4 from the August 10, 1992 submittal, the submittal describes our testing process during the Third Inspection Interval until December 1, 1992.

On August 5, 1992 a revision to Relief Request # 10 concerning CF-11 and 13 was submitted to the NRC. The attached IST Program Manual incorporates the revised Relief Request as submitted on August 5, 1992.

If you have any questions or need further information you may contact M. E. Patrick at (803) 885-3292.

Very truly yours,

J. W. Hampton
Site Vice President
