NRC Bulletin No. 90-01, Supplement 1: Loss of Fill-
Oil in Transmitters Manufactured by Rosemount

Gentlemen:

The subject NRC Bulletin 90-01, Supplement 1, dated December 22, 1992 requested that addresses review the information in the supplement for applicability to their facilities and modify, as appropriate, their actions and enhanced surveillance programs. The supplement applied to any Rosemount Model 1153 Series B, Model 1153 Series D, and Model 1154 transmitters manufactured before July 11, 1989, that are used or may be used in the future in either safety-related systems or systems installed in accordance with 10 CFR 50.62 (ATWS rule). The action items identified in Supplement 1 superceded the actions requested in the original bulletin and responses to the supplement were to be provided 60 days after receipt.

The purpose of this letter is to inform the NRC that Duke Power will take the actions requested per Supplement 1; however, additional response time will be required in order to complete the justification for the specific actions taken. Accordingly, the response to the Supplement 1 will be submitted no later than May 24, 1993.

Very truly yours,

H. B. Tucker
Senior Vice President
