Gentlemen:

Subject: Report Nos. 50-269/81-04, 50-270/81-04 and 50-287/81-04

This refers to the routine safety inspection conducted by F. Jape of this office on February 2 - March 10, 1981, of activities authorized by NRC Operating License Nos. DPR-38, DPR-47, and DPR-55 for the Oconee facility. Our preliminary findings were discussed with J. Ed Smith at the conclusion of the inspection.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

During this inspection it was found that certain activities under your license appear to violate NRC requirements. These items and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. With regard to item C, a reply is not requested for this item since this item was previously identified in our letter of January 20, 1981 as Appendix B, item B. Response is requested for that enforcement action. Elements to be included in your response are delineated in Appendix A.

We have examined actions you have taken with regard to previously reported unresolved items. The status of these items is discussed in the enclosed report.

In accordance with Section 2.790 of the NRC "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include the basis for claiming that the information is proprietary and the proprietary information should be contained in a separate part of the document. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

R. G. Lewis, Acting Director
Division of Resident and
Reactor Project Inspection
