SUBJECT
Telephone discussion with Mr. Pitt about earlier telephone conversatio

SUMMARY AND ACTION REQUIRED (IF ANY)

Mr. Pitt contacted me to follow-up on our telephone conversation from April 28. He said that he planned to have a discussion with other individuals who were involved with the program in the past, including John Zehner, in order to get some information and history about the use of radioactive material under the NRC license.

I also told Mr. Pitt that I had done a review of Positron's NRC license file and determined that locations previously listed on the license, i.e., 7715 Loma Court, Fishers, Indiana, and 1195 Arrowhead Court, Crown Point, Indiana, had been reviewed and released for unrestricted use by our staff, therefore, he does not need to respond to item 1 in my March 25 conversation record. I requested that he submit a response to items 2 through 5 of the March 25 conversation record as soon as possible.

Mr. Pitt then told me that he was having a problem with my request for results of leak tests of the sources that ADCO had removed for them in early 2015. He also stated that when he spoke to ADCO about the leak tests), ADCO representatives stated that they did not perform leak tests on the sources. Mr. Pitt stated that it was his understanding that ADCO was going to perform leak tests on the sources as part of the contract with Positron to dispose of licensed material.

ADCO told Mr. Pitt that they still had the sources and would do a leak test on them. Results of the leak tests will need to be conducted and submitted for NRC review before issuance of an amendment to terminate the license.
