LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

- 1. Based on the inspection findings, no violations were identified.
- 2. Previous violation(s) closed.
- 3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy to exercise discretion, were satisfied.
 - Non-Cited Violation(s) was/were discussed involving the following requirement(s) and Corrective Action(s):
- 4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.

Licensee's Statement of Corrective Actions for Item 4, above.

I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

Subject: NRC Inspection Report

Warren,

Attached please find the NRC Inspection Report for the inspection conducted by me and Jason VonEhr on June 19, 2015. As a result of the inspection, no violations were identified. Additionally, there was one Severity Level IV violation from the previous NRC inspection that we reviewed and consider closed. A response is not required for the attached inspection report; however, we would appreciate a courtesy email from you confirming receipt.

As discussed during the inspection, please use the NRC Form 314, "Certificate of Disposition of Materials" to terminate your license. At the conclusion of the on-site inspection, we provided you with a blank hard copy of the form and the instructions for completing the form. For your convenience, we have attached an electronic copy of the form and its instructions for your use.

Please contact us if you have any questions.
