Items of Interest
Week Ending August 7, 2015**

Miscellaneous Corrections; Final Rule; Parts 1, 37, 40, 50, 55, 74 and 75 of Title 10 of the Code of Federal Regulations (Regulation Identifier Number 3150-AJ60; NRC-2015-0105)

On August 3, 2015, the Nuclear Regulatory Commission (NRC) published a final rule in the *Federal Register* ([80 FR 45841](#)) amending its regulations to make miscellaneous corrections. These changes include updating the name and the phone number of the U.S. Government Publishing Office, updating the address for the National Technical Information Service, correcting typographical errors, correcting misspellings, and correcting references. This document is necessary to inform the public of these non-substantive changes to the NRC's regulations. The final rule is effective on September 2, 2015.

Technical Assistance for the Supplemental Environmental Impact Statement for the Reno Creek In-Situ Recovery Project

On July 28, 2015, as a result of a non-competitive solicitation, cost-reimbursable task order NRC-HQ-50-15-T-0004 was issued under enterprise-wide contract NRC-HQ-50-14-E-0001 to Southwest Research Institute, in San Antonio, Texas. The objective of this task order is to support NRC staff in developing a final draft Supplemental Environmental Impact Statement and completing the National Historic Preservation Act Section 106 consultation recommendation report for the State Historic Preservation Office. The period of performance is July 28, 2015, through July 27, 2018. The total cost ceiling is \$341,897.

SAPHIRE 8 Code Maintenance and Quality Assurance Activities

On July 31, 2015, as a result of a non-competitive solicitation, cost-reimbursement interagency agreement NRC-HQ-60-15-D-0010 was awarded to Idaho National Laboratories in Idaho Falls, Idaho. The objective of this agreement is to provide code maintenance and update NUREG/Contractor Reports for SAPHIRE Version 8. The period of performance is August 1, 2015, through July 31, 2017. The total cost ceiling is \$718,087.

Acquisition Reporting and Strategic Acquisition System Change Management and Change Control Board

On August 3, 2015, as a result of a non-competitive solicitation, cost-reimbursement order NRC-HQ-40-15-O-0001 was issued under Blanket Purchase Agreement NRC-HQ-10-15-A-0002 to Northramp, LLC in Reston, Virginia. The objective of this order is to provide support for the development of custom acquisition reports. The period of performance is August 3, 2015, through May 27, 2016. The total cost ceiling is \$1,335,297.

Program, Project, and Configuration Management Support for the U.S. Nuclear Regulatory Commission's Enterprise Project Management Program

On August 3, 2015, as a result of a non-competitive solicitation, cost-reimbursement order NRC-HQ-25-15-O-0001 was issued under Blanket Purchase Agreement NRC-HQ-10-15-A-0002 to Northramp, LLC in Reston, Virginia. The objective of this order is to acquire program, project and configuration management, and analysis support services to assist in planning, documenting, and facilitating the implementation of information technology initiatives and processes. The period of performance is August 3, 2015, through May 27, 2016. The total cost ceiling is \$2,553,454.

AUGUST 7, 2015

ENCLOSURE A

Medium Voltage Circuit Breaker Course

On August 4, 2015, as a result of a competitive solicitation, fixed-price contract NRC-HQ-84-15-C-0003 was awarded to CR Electrical Distribution Services, Inc. in Williamsburg, Virginia. The objective of this contract is to provide training to NRC staff in the design, operation, maintenance and testing of Medium Voltage Circuit Breakers. The period of performance is September 30, 2015, through September 29, 2016, with four 1-year options. The total price ceiling is \$309,980, inclusive of options.

Level 2 Probabilistic Risk Assessment Dynamic Simulation

On August 4, 2015, as the result of a non-competitive solicitation, cost-reimbursement interagency agreement NRC-HQ-60-15-D-0011 was awarded to Sandia National Laboratories, in Albuquerque, New Mexico. The objective of this interagency agreement is to provide technical assistance in developing the Level 2 modeling approach to Probabilistic Risk Assessment. The period of performance is August 4, 2015, through September 30, 2018. The total cost ceiling is \$852,932.

Institute of Electrical and Electronics Engineers Nuclear Power Engineering Committee Meetings

On July 27-29, 2015, the staff participated in the Institute of Electrical and Electronics Engineers (IEEE) Nuclear Power Engineering Committee meeting in Salt Lake City, Utah. Staff participated in the general meeting as well as in the IEEE Auxiliary Power Subcommittee meetings. The staff contributed to standards related to standby power supply (IEEE Standard 387), protection of Class 1E power systems (IEEE Standards 741 and 742), and combustion turbine generators (IEEE P2420).

Public Meeting on Institute of Electrical and Electronics Engineers Standard 603-2009

On August 4, 2015, the staff hosted a category 3 public meeting on the proposed rule to incorporate by reference the Institute of Electrical and Electronics Engineers Standard 603-2009 into 10 CFR 50.55a. The meeting was a webinar format, and 63 individuals attended the meeting including 24 staff and 39 members of the public. Members of the public asked questions on several aspects of the preliminary draft proposed rule including applicability, definitions, and data communication restrictions for new reactors. The staff intends to submit the proposed rulemaking package to the Commission for approval in September 2015.
