Subject: Additional Information for License Termination Request
Attachments: E-MAIL O'BANION LABS.PDF

Hi,
As we discussed by telephone, we need additional information to complete the review of your request to terminate your NRC license. Please see the attached file. We updated our e-mail system, so I hope you receive this. Please call or leave a message for me at (630) 829-9839, if you have any questions.
Bill Reichhold

soon as possible at the telephone number provided above.

MESSAGE See accompanying documents.

NOTICE

This message is intended only for the use of the individual or entity to which it is addressed and may contain information that is privileged, confidential, or exempt from disclosure under applicable law. If the reader of this message is not the intended recipient or the employee responsible for delivering the message to the intended recipient, you are hereby notified that any dissemination, distribution or copying of this communication is strictly prohibited. If you received this communication in error, please notify the sender immediately by telephone and return the original to the above address, by U.S. Mail. Thank You.

The following additional information is needed to complete the review of your request to terminate your NRC license.

1. Please submit a list the radionuclides that were actually used or stored at your facility. Your NRC license authorized 9 Troxler model gauges, three radionuclides, with multiple millicuire amounts for numerous gauges. For example, Troxler model 3241-C with authorization for three sealed americium-241 sources, one 100 millicurie source and two 300 millicuire sources. Also Troxler models 3430, 3440, 3450, 3430-M, and 3440-M, with authorization for sealed cesium-137 sources, sealed americium-241 sources, and sealed californium-252 sources. Again, please submit a list of the radionuclides that were actually used and stored at your facility. For example, if you only had one Troxler model 3241-C gauge containing a 100 millicure americium-241 sealed source, please state so. If you did not have any of the other gauges or radionuclides that were authorized on your NRC license, please state that you never received or possessed any other gauges (such as the Troxler model 3430, 3440, 3450, 3430-M, or 3440-M) or radionuclides (such as cesium-137 or californium-252).
2. Please specify the date when the gauges(s) and radionuclide(s) were transferred to Bucyrus Road Materials, Inc.
3. Please submit a copy of the leak test(s) for the radionuclide(s) that were current when the gauge(s) were transferred to Bucyrus Road Materials, Inc.
4. Please confirm that all gauge(s) and radionuclide(s) have been removed from your facility and transferred to Bucyrus Road Materials.
5. Please submit a copy of the acknowledgement letter from Bucyrus Road Materials that they received the radioactive materials were transferred from O'Banion Laboratories Corporation.

Please send a facsimile (630-515-1078) of your response to the above within 14 days and state, Response to Control 588141. Please include a cover letter on company letterhead, dated and signed (signed by an individual who is authorized to sign official documents on behalf of the licensee) with your response letter. Please call me at 630-829-9839 if you have any questions.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this facsimile and the attached documents will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
