**Subject:** Request for additional Information for License No. 45-25221-01MD

Dear Mr. Hisel:

Please send a return email to confirm that you have received this message.

This is in reference to the letter dated June 4, 2015 requesting to amend Nuclear Regulatory Commission License No. 45-25221-01MD and to follow up on our telephone conversation on July 30, 2015. In order to complete your amendment request, we need the following additional information:

1. You requested to release the the facility at 3601 Morgantown Industrial Park in Morgantown, WV for unrestricted use. In your Final Status Survey Report, you stated that sealed sources were possessed at the facility and have been transferred to another IBA Molecular facility. With respect to these sealed sources:
  - a. Please submit most recent leak tests performed before transfer.
  - b. Please submit documentation of receipt of the sources. The documentation should include the inventory of the sources received at the other facility.

You may respond to my attention in writing by letter, email (if scanned into a pdf format), or fax (610-337-5269), referencing mail control number 588167. Please ensure that your response is signed by an appropriate licensee management representative.

If we do not receive a reply from you within 30 days of the date of this email, we will assume that you do not wish to pursue your renewal. Please feel free to contact me with any questions you may have.

Sincerely,

*Farrah C. Gaskins*
