Mr. James Mallon
Early Site Permit Manager
PSEG Power, LLC
244 Chestnut Street
Salem, NJ 08079

SUBJECT: FINAL SAFETY EVALUATION REPORT FOR THE PSEG SITE EARLY SITE PERMIT APPLICATION

Dear Mr. Mallon:

The draft Final Safety Evaluation Report (FSER) for the PSEG Site Early Site Permit Application is being provided to you for review of proprietary information and security-related information pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390, "Public Inspections, Exemptions, Requests for Withholding."

The U.S. Nuclear Regulatory Commission (NRC) staff concludes that the draft FSER does not contain any information for which exemption from public disclosure has been sought or approved or any factual errors. However, the NRC will withhold the draft FSER from public disclosure until you complete your review to verify the NRC staff's conclusion that the draft FSER contains no such exempt information or any factual errors. The NRC staff requests that you complete this review by September 23, 2015.

If you do not request that all or portions of the draft FSER be withheld from public disclosure, the enclosure will be made available for public inspection through the NRC Public Document Room and the Publicly Available Records component of NRC's Agencywide Documents Access and Management System and placed on the NRC's public web page for this application.

An FSER will be provided to you and will be submitted to the appointed hearing board in preparation for the Mandatory Hearing, after correcting any factual errors identified as part of your review. NRC staff issuance of this draft FSER does not constitute a commitment to issue the Early Site Permit, or in any way affect the authority of the Commission in any rulemaking proceeding pursuant to Subpart H of 10 CFR Part 2 and Subpart C to 10 CFR Part 52.

Document transmitted herewith contains sensitive unclassified information. When separated from the enclosure, this document is "DECONTROLLED."

J. Mallon
