Re: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

Dear Sir:

My letter of October 30, 1980 informed you that the effluent flow rate monitor listed in Table 3.5.5-2 of the proposed specifications for the Interim Radwaste Building, transmitted therein, presently does not exist and that the installation of this monitor was not expected to be completed until November 1, 1981.

However, it has now been determined that installation will not be completed by this date due to the monitor being in the design stage. Currently, the date of installation cannot be determined. Duke Power Company will provide you with the installation schedule of this monitor at a later date.

Very truly yours,

William O. Parker, Jr.
