U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. J. F. Stolz, Chief
Operating Reactors Branch No. 4

Subject: Oconee Nuclear Station, Unit 1
Docket Nos. 50-269, -270, -287

Dear Sir:

This letter confirms recent conversations held between Duke Power and the NRC staff and supplements my letter of December 29, 1981 which provided the status of certain TMI Action Plan items at Oconee Unit 1. At the time that the letter was being prepared it was expected that the hydrogen gas sample system, required by Action Plan II.F.1.6 would be completed. However, delays in receipt of certain material have delayed the full implementation of this modification. As these materials can be installed while the unit is operating, the modification will be completed promptly upon receipt of the necessary materials.

Very truly yours,

William O. Parker, Jr.
