File 126.10

Dear Sir:

I would appreciate your interpretation on the following subject as per Appendix B. Should a security officer be certified on a yearly basis to all posts that he/she is certified to work?

I am of the opinion that a security officer does not require annual recertification on a post that he/she works daily, or on a regular basis. I do, however, strongly believe that in the event the officer has not worked the post for a period of time, he/she should read the post certification requirements and then be briefed by his supervisor prior to working the post.

In summary, do you interpret the intent of Appendix B as that each security officer should be recertified annually on all posts that he/she works?

Your assistance in this matter is greatly appreciated.

Very truly yours,

*James W. Davis*
