50-268

Here is a draft copy of Appendix A of the Offsite Dose Calculation Manual which deals specifically with the Oconee Nuclear Station. You should already have copies of the generic section of the ODCM which has already been approved. Table A4.0-3 will be retyped, and certain other figures will be in color and/or full size when formally submitted. This is the only difference between the draft and the final submittal. This should complete the submission of all information needed for review of the Oconee Radioactive Effluent Technical Specifications (RETS).

K. S. Canady, Manager
Nuclear Engineering Services

Jocelyn C. Petty
