Re: Oconee Nuclear Station
Docket No. 50-269

Dear Sir:

By a June 24, 1983 letter, a response was transmitted per a May 23, 1983 letter from J. F. Stolz requesting additional information concerning the proposed reracking of Oconee Unit 3's spent fuel pool. Request No. 1 required that structural drawings of the pool and liner showing reinforcement of the walls and floor and attachment of the liner to the concrete be provided. Our response identified eight drawings and stated that the prints were enclosed for review. Attached please find those Duke drawings listed below that were inadvertently omitted from the June 24 letter.
