Docket Nos. 50-269, -270, -287
Radiological Effluent Technical Specifications

Dear Sir:

My letter of October 30, 1980 resubmitted for your approval the proposed radiological effluent technical specifications (RETS) for the Oconee Nuclear Station. A recent review of this submittal has determined that Technical Specification 3.11.1.c was missing some information. This specification has been revised to make it consistent with other similar specifications which are included in the RETS. A copy of Technical Specification page 3.11-1, which has the corrected Specification 3.11.1.c, is attached. Please remove page 3.11-1 of the October 30 submittal and replace it with the attached.

Very truly yours,

William O. Parker, Jr.
