Attention: Mr. J. F. Stolz, Chief
Operating Reactors Branch No. 4

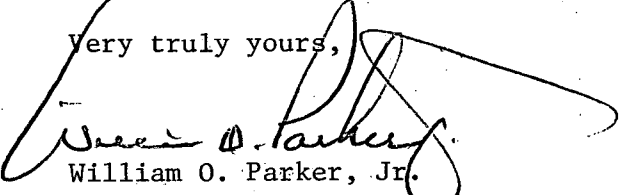

Subject: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287
Status of NUREG-0737, Item II.D.1

Dear Sir:

By letter dated July 1, 1981, R. C. Youngdahl (Consumers Power) transmitted the Interim Data Report for the EPRI PWR Safety and Relief Valve Test Program. This report summarizes the test data collected to date on relief and safety valves. Each unit of Oconee Nuclear Station has a Dresser 31533 VX-30 relief valve and a Dresser 31739A safety valve. Relief and safety valves representative of the above valves are being tested in the EPRI program. Duke will submit evaluations and other plant specific data on a schedule consistent with the R. C. Youngdahl letter of December 15, 1980 and modified on July 1, 1981.

Very truly yours,

William O. Parker, Jr.
