**Subject:** [External\_Sender] Docket Nos. PRM-20-28, PRM-20-29, and PRM-20-30, NRC-2015-0057

Dear Secretary,

Please reject the hormesis model.

Any changes to radiation regulations contemplated by the NRC should be in the direction of strengthening, not weakening radiation regulations. The NRC should reject the three petitions for rulemaking cited in the subject line out of hand. The agency should not even have accepted them for public comment in the first place, as they are frivolous and based on unsound science.
