SUBJECT: OCONEE NUCLEAR STATION REQUALIFICATION REPORT - 50-269/OL-90-02

The NRC administered examinations during the weeks of July 9 and 16, 1990 to employees of your company who currently hold licenses to operate the Oconee Nuclear Station. At the conclusion of the site visit, preliminary findings were discussed with those members of your staff identified in the Examination Report, Enclosure 1.

Copies of the written examinations and answer keys are included in this report as Enclosure 2.

A requalification program evaluation report is included as Enclosure 3. This evaluation report finds that the Oconee requalification program remains satisfactory.

Your attention is invited to information in the examination and evaluation reports which describe our concerns over operator performance and examination administration.

A Simulator Fidelity Report is provided in this report as Enclosure 4.

A copy of the letter from D. Sweigart to R. Baldwin is provided in this report as Enclosure 5.

In accordance with 10 CFR 2.790(a), a copy of this letter and Enclosures 1, 2, 3, 4, and 5 will be placed in the NRC's Public Document Room.
