SUBJECT: NRC APPROVAL OF CAMMENGA AND ASSOCIATES, LLC REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE

Dear Mr. Karchon:

Cammenga and Associates, LLC (Cammenga) submitted an affidavit dated August 10, 2015, executed by Mr. Christopher J. Karchon, requesting that the information provided in application dated August 8, 2015, to amend Sealed Source and Device registration certificate and Exempt Distribution License, be withheld from public disclosure pursuant to 10 CFR 2.390.

The affidavit stated that per §2.390(b)(4), Cammenga is requesting that all of the information be withheld from public disclosure for the following reasons: (1) the proprietary information is the property of Cammenga and has not been made available to the public. The proprietary information has been held in confidence by Cammenga since its inception and continues to remain confidential; (2) the proprietary information is of a type customarily held in confidence by Cammenga; (3) the proprietary information is neither available in public sources nor generally known in the public domain. After careful and extensive research, Cammenga found no comparable methodologies or patentable processes. Thereafter, Cammenga classified its developments as trade secrets and held the proprietary information as proprietary and as trade secret; and (4) public disclosure of the proprietary information is highly likely to cause substantial harm to Cammenga's competitive position because it will permit competitors to create similar products and either reduce or foreclose future business opportunities.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, Cammenga and Associates, LLC information submitted in your application dated August 8, 2015, marked as "Proprietary Information" will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended. Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act

request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified of the date of public disclosure, in advance which will be a reasonable time thereafter.

If you have any questions, please contact me at (301) 415-6004, or e-mail Hector.Rodriguez-Luccioni@nrc.gov.

Sincerely,

/RA/
