General Comment

The nuclear industry/cabal must be STOPPED, in all its manifestations. It is unsafe, expensive, uses massive quantities of water and has a waste issue of astronomical proportions. The nuclear plants are a detriment to culture/society. Nuclear weapons are an insanity and MUST be destroyed somehow. Do you have an answer to the waste and the proliferation of these weapons? How will it all be disposed of? No one can answer these questions. We have all been exposed to radiation for 70 years and the NRC must take responsibility!
