License Renewal for Crow Butte Resources, Inc., Docket No. 40-8943, ASLBP No. 08-867-02-OLA-BD01

Dear Rulemakings and Adjudications Staff:

As next-door neighbors of the Crow Butte Resources mine, we would like to make the following points:

Crow Butte Resources and its employees follow Federal and State regulations closely, and are very environmentally-minded.

Crow Butte Resources provides jobs for area residents, in that nearly all of the Crow Butte employees grew up in the Panhandle of Nebraska, still call it home, and are very conscientious about preserving our precious groundwater.

Crow Butte Resources employs knowledgeable associates and leaders, many of whom come from multi-generational farm and ranch families, so they work wonderfully with, and have a great respect for, area ranchers and landowners.

Crow Butte Resources not only helps support the local tax base, but shops locally and donates to many community organizations and fundraisers.

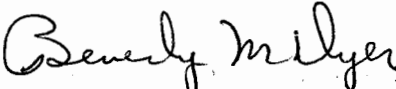

In addition, we harvest hay from the outlying areas of the mine, plus rent pasture from them. We couldn't ask for a better company to work with. If any changes need to be made in our haying borders, the mine is very professional in the changes they ask us to make.

Finally, we have heard of "nightmare stories" about what this kind of mining has done to other parts of the U.S., but we have done some research and feel very comfortable with Cameco.

Cameco has been, and continues to be a real "plus" for this area. We endorse and give our support to renewal of the license for Crow Butte Resources.

Sincerely,

Michael L. Dyer

Beverly M. Dyer
