Attention: Mr. John F. Stolz, Project Director
PWR Project Directorate No. 6

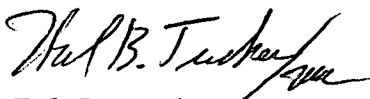

Subject: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

Dear Sir:

By letter dated September 6, 1985, Duke Power Company (Duke) provided a confirmatory response to issues relating to NUREG-0737 Item II.K.3.30 and to the use of the CRAFT2 code. Within the September 6, 1985 letter Duke committed to the use of the approved Small Break LOCA (SBLOCA) Evaluation Model to perform SBLOCA analyses for Oconee Nuclear Station in response to the requirements of NUREG-0737 Item II.K.3.31 in order to affirm the validity of previous SBLOCA analyses. Further, Duke had indicated that a submittal of the results of the planned analyses would be provided by July, 1986.

However, as a result of minor code problems, and other unforeseen difficulties, the submittal of the results of the analyses will not be provided by July, 1986. Duke currently projects submitting the results of the analyses by no later than October 1, 1986.

Very truly yours,

Hal B. Tucker
