Re: Oconee Nuclear Station  
Docket Nos. 50-269, -270, -287

Dear Mr. Denton:

By letter dated May 29, 1986, the NRC transmitted Generic Letter 86-05 to all Licensees with Babcock & Wilcox (B&W) designed Nuclear Steam Supply Systems. Enclosed with the Generic Letter was the NRC's Safety Evaluation (SE) regarding the B&W Owners Group (BWO) Submittals on TMI Action Item II.K.3.5, "Automatic Trip of reactor coolant pumps".

In addition, Generic Letter 86-05 requested that within 45 days from receipt of the Generic Letter, Licensees who choose to endorse the BWO methodology provide a schedule for the submittal of the information requested in Section IV of the SE.

Please be advised, that, for Oconee, Duke Power does endorse the BWO methodology. As such, Duke currently projects that the information requested in Section IV of the NRC Staff's SE will be submitted by October 20, 1986.

Very truly yours,

Hal B. Tucker
