Docket Nos. 50-413 and 50-414  
Offsite Dose Calculation Manual

Dear Mr. Denton:

Please find enclosed ten copies each of Revisions 11 and 12 of the Offsite Dose Calculation Manual.

Revision 11, which affects only Oconee Nuclear Station, is submitted in order to correct typographical errors and to incorporate Radwaste Facility information in the ODCM. The effective date of this revision was September 12, 1986.

Revision 12, which affects only Catawba Nuclear Station, is submitted in order to correct typographical errors, and provide information on the Conventional Waste Water Treatment System releases. The effective date of this revision was September 19, 1986.

These revisions do not reduce the accuracy or reliability of dose calculations or setpoint determinations. These revisions have been reviewed and approved by the appropriate station managers as indicated on the following cover sheets.

According to Technical Specification requirements, revisions to the Offsite Dose Calculation Manual are to be submitted in the semi-annual Radioactive Effluent Release Report. As a matter of convenience, we are submitting these revisions
