Docket Nos. 50-269, -270, -287  
Emergency Procedure Audit

Dear Mr. Denton:

Attached for your information is one copy of the Oconee Nuclear Station (ONS) Emergency Procedure Guidelines and one copy of the ONS Emergency Procedure Guidelines/Reference Document. These documents are being transmitted to aid the NRC in preparation of the Oconee Emergency Procedure Audit which has been scheduled for December 10, 11 and 12, 1986. Please note that these documents are controlled and proprietary and therefore require handling in an appropriate manner. Also, Duke Power requests that these documents be returned during the site audit in December.

Also attached for your information are copies of the ONS Unit 3 Emergency Operating Procedures and all referenced procedures. A list of scenarios which the Oconee Simulator is programmed to perform is included. The simulator will be available on December 11, 1986 from 7:30 to 11:30 A.M. for NRC observation. Advance notice of the scenarios which the NRC is interested in would be appreciated.

As requested, the following is a list of correspondence associated with the Procedures Generation Package (PGP).
