28 JAN 1987

Mr. H. B. Tucker, Vice President
Nuclear Production Department
Duke Power Company
422 South Church Street
Charlotte, North Carolina 28242

Dear Mr. Tucker:

Subject: Operator Replacement and Requalification Programs for the
Oconee, McGuire and Catawba Nuclear Power Stations

In letters of August 15 and November 13, 1986, you submitted licensed operator replacement and requalification programs for the Oconee, McGuire and Catawba Nuclear Power Stations. The NRC staff has reviewed the programs and responses to our letter of October 1, 1986, and has discussed these programs with Duke Power Training Personnel during the period of December 12-30, 1986. Based on the information provided, we find the programs meet the criteria contained in the Standard Review Plan and, therefore, are acceptable. The enclosure contains our evaluation.

Our enclosed evaluation notes that future resubmittals of the programs will be needed upon completion of final rulemaking on revision to 10 CFR Part 55. Our evaluation includes several recommendations for your consideration for future revisions to the programs.

If you have questions regarding the enclosure, contact me or your respective NRR Project Manager.

Sincerely,

Darl Hood, Project Manager
PWR Project Directorate #4
Division of PWR Licensing-A
