OCONEE ISFSI SAFEGUARDS LICENSE CONDITION

1.1 PHYSICAL PROTECTION REQUIREMENTS FOR SPENT FUEL IN DRY STORAGE

1.1.A The licensee shall establish and maintain a physical protection program in accordance with the provisions of his physical security plan entitled, "Oconee Nuclear Station, Independent Spent Fuel Storage Installation (ISFSI) Security Program (Revision 2) submitted by letter dated October 28, 1988," (which includes a safeguards contingency plan as Chapter 3.0); and as it may further be revised under the provisions of 10 CFR 72.44(e) and 72.186.

1.1.B The licensee's physical protection program shall be supported by a security organization, with personnel trained and qualified in accordance with the provisions of 10 CFR Part 73, Appendix B as outlined in the plan published under the title, "Oconee Nuclear Station Training and Qualification Plan, Revision 7," submitted by letter dated January 26, 1989; and as it may further be revised under the provisions of 10 CFR 72.44(e) and 72.186.
