

August 10, 1992

TO: HOLDERS OF THE DUKE POWER COMPANY
EMERGENCY DOSE ASSESSMENT MANUAL

Subject: Deletion of the Duke Power Company
Emergency Dose Assessment Manual

Effective August 1, 1992, the Duke Power Company Emergency Dose Assessment Manual is being deleted.

This change is a result of the Duke Power corporate reorganization on November 1, 1991. The responsibility for Emergency Planning has been transferred from corporate headquarters to the nuclear sites. Accordingly, information previously contained in the Duke Power Company's Emergency Dose Assessment Manual has been incorporated into the individual Nuclear Stations' Emergency Plan Implementing Procedures.

The Catawba and Oconee Nuclear Station Emergency Plan Implementing Procedures have been revised effective June 30, 1992. The McGuire Emergency Plan Implementing Procedures have been revised effective August 1, 1992.

Please return these manuals to:

J. J. Honeycutt
Emergency Planning
Duke Power Company, WC26C
P.O. Box 1007
Charlotte, N.C. 28201-1007

If you have any questions, call Jim Honeycutt at (704) 373-7705.
