ENCLOSURE

AGENDA

OCONEE AIT MANAGEMENT MEETING ISSUES

1. DPC comments on NRC AIT inspection report 92-26 dated November 27, 1992.
2. Results of DPC's review of this event, cause determination and proposed corrective actions and schedule, including design modifications.
3. Conformance of Oconee Electrical System to the intent of GDC-17, particularly in relation to the independence between the offsite and onsite electrical sources and the independence between the preferred offsite sources.
5. Discuss testing performed on the Keowee Overhead Emergency Path in accordance with Technical Specifications 4.6.1.b and 4.6.5 and any proposed changes to this testing.
6. Description of the organizational groups responsible for technical support to the Keowee facility, both under normal and abnormal/emergency conditions. Include definition and assignment of responsibility for all activities important to the safe operation of the facility.
7. Discussion of management of Oconee and Keowee support items such as training, maintenance, surveillance testing, and EOP implementation. Include actions taken and planned to improve Keowee and Oconee operator training on Keowee and actions taken and planned to improve abnormal and emergency operating procedures at Keowee.
