Dear Secretary,

I oppose the proposed 10 CFR 61 changes and ask NRC to make changes in the direction of greater isolation of waste. Radioactive releases and exposure to humans and other species must be prevented, not increased.

I will not list the proposals as you must know them pretty well by now. I do not expect a response as you never respond meaningfully. I have come to the conclusion over the years that you cannot be merely ignorant; you guys are evil.

Sorry, what with you and also the new "improved" nuclear weapons in the pipe, I am not in the best of moods today.
