Dear Mr. O'Reilly:

Please refer to my letter of August 24, 1979 which provided an initial response to IE Bulletin 79-05C, transmitted by your letter of July 26, 1979. Attached is information which supplements our earlier response.

Attachment 1 provides the results of further analysis required to complete the response to Item 2 of IE Bulletin 79-05C. Attachment 2 provides a revised impact assessment of an reactor coolant pump trip on non-LOCA events. Evaluations in this letter item are continuing and the results will be provided when available.

Very truly yours,

William O. Parker, Jr.
