Dear Mr. Parker:

By letter dated January 18, 1980, we transmitted a proposed Technical Specification (TS) to you relating to Steam Generator Tubing Surveillance. We requested your response to our proposed TS in a timely manner to permit resolution of this issue.

In the event that you object to the proposed Steam Generator Tubing Surveillance TS, we request that you submit information regarding the Steam Generator Inspection Program for our review prior to the Oconee Unit No. 2 Cycle 5 refueling outage.
