CHIEF BRANCH - C
US REG. COMMISSION REGION IV
611 RYAN PLAZA DR. SUITE 400
ARLINGTON, TX 76011-4005

SONGS Tech Spec Users,

You are receiving this letter as the owner of a User-Controlled copy of the San Onofre Nuclear Generating Station (SONGS) Units 2 and 3 Operating Licenses and Technical Specifications manuals. Southern California Edison recently received approval of amendments to the Units 2 and 3 Operating Licenses to transition to Permanently Defueled Technical Specifications. In light of these amendments, your copy is no longer up to date.

In addition, due to the permanent shutdown of SONGS, and the resulting reduction in resources available to maintain the controlled manuals, your user-controlled copies can no longer be maintained by Southern California Edison and you will be receiving no further updates to your manuals. Please be aware that your copy is no longer current. You may also wish to destroy your copy upon receipt of this letter.

Onsite manual owners can access the up-to-date Operating Licenses and Technical Specifications through SAP Express. Offsite manual owners can access up-to-date Operating Licenses and Technical Specifications through the Nuclear Regulatory Commission's (NRC's) Agency-wide Documents Access and Management System (ADAMS) at <http://adams.nrc.gov/wba/> using the ADAMS Accession Numbers ML053130316 (for Unit 2) and ML053140357 (for Unit 3).

If you have any questions regarding this matter or feel that you have a continuing need for an updated user-controlled manual, please contact Mr. Mark Morgan at (949) 368-6745.

Sincerely,

RECEIVED
