License Amendment Request (LAR) for Revision to Cyber Security Plan
Implementation Schedule Completion Date
Supplement 1 to Amendment Application Numbers 269 and 254
San Onofre Nuclear Generating Station, Units 2 and 3**

Reference: (1) Letter from Thomas J. Palmisano (SCE) to Document Control Desk (NRC) dated November 12, 2014; Subject: Docket Nos. 50-361 and 50-362, License Amendment Request (LAR) for Revision to Cyber Security Plan, Implementation Schedule Completion Date, Amendment Application Numbers 269 and 254, San Onofre Nuclear Generating Station, Units 2 and 3 (ADAMS Accession No. ML14321A015)

Dear Sir or Madam:

This letter submits Supplement 1 to Southern California Edison (SCE) letter dated November 12, 2014 (Reference 1) which submitted a License Amendment Request (LAR) to change the implementation date for the SONGS Cyber Security Plan, Implementation Milestone 8.

This Supplement, based on recent discussions with NRC and for consistency with recent precedents, proposes a slightly different change to the License Condition (Paragraph 2.E of Facility Operating License Nos. NPF-10 and NPF-15) than was included as part of the Reference 1 LAR. The proposed change to the License Condition also utilizes the most current version of the SONGS Units 2 and 3 Facility Operating License pages (i.e., issued as part of Amendments 230 and 223, respectively) and supersedes the changes in Reference 1.

This LAR will become effective upon issuance by the NRC. SCE intends to implement the approved amendment within a period of 30 days following issuance but no later than December 31, 2015.

There are no new regulatory commitments in this submittal.
