Emergency Class:

"Notification of 'listed' species off the waters of PNPS [Pilgrim Nuclear Power Station].

"PNPS workers observed an endangered whale off the waters of PNPS. There was a confirmed sighting of a single North Atlantic Right Whale calf (*Balaena glacialis*). This will be reported to National Marine Fisheries Service by members of the Whale and Dolphin Conservation (WDC) IAW PNPS procedures.

"Background:

As a result of a mandated environmental review that occurred for PNPS's license extension, the National Marine Fisheries Service (NMFS) requested that the US NRC require the plant to report any observations of 'listed' (i.e., endangered or threatened) whale species to NMFS within 24 hours.

"This report is made IAW10CFR50.72(b)(2)(xi)."

The licensee will notify the NRC Resident Inspector.

Notified the R1DO (Lilliendahl) and Endangered Species Group via e-mail.
