nuclear Regulatory Commission; March 23, 1987

Persons:

The Union of Concerned Scientists has petitioned you to suspend temporarily the ~~the~~ licenses of the 8 operating B & W reactors until it ~~can~~ can be demonstrated that such reactors are safe.

I desire to join in as a party in support of such petition and I hereby request that such reactors be closed until it can be shown convincingly that they pose no threat ~~of~~ <sup>or</sup> hazard to the safety of the public. We are not a nation <sup>possessing</sup> of Russian indifference to the safety of our people, as was the case at Chernobyl. I assert it to be the law of the U. S. A. ~~and~~ that 1. The dominance of the nuclear industry over your agency is corrupt since it is a matter of elementary constitutional law that the regulated (such as railroads, airlines, telephones, nuclear power plant operators, etc.) may not regulate or control the regulators (the administrative agencies); 2. In the case of nuclear power reactors, the burden of proof is on the regulated segment.

Sincerely  
Samuel Kauffman
