RE: *Duke Power request for Relicensing Request for Oconee Nuclear Station*

Dear Mr. Clark

As a native South Carolinian, business owner and taxpayer I wish to express my view that Duke Power's request to relicense Oconee Nuclear Station should be denied. With no solution for nuclear waste except to throw it in the ground, Now is the time to stop the operation of this money pit. **A nuclear phaseout is necessary**, not relicensing these white elephants. Subsidizing a failed industry will not help America.

Thank you

Claude L. Gilbert, Jr.

ps On another related note: **MOX fuel is not the answer**, reprocessing contaminates the environment and produces more waste. Please don't forget the health and well being of *everyone* on this planet. Please look at the situation in France (La Hague) and also in England (BNFL) to see what reprocessing does.
