American Centrifuge Plant
Docket No. 70-7004; License No. SNM-2011

Request for Closeout Inspection of American Centrifuge Project Classified Area at Alliant Techsystems, Inc. (ATK) Allegany Ballistics Laboratory (11655) (ABL)

Dear Mr. Layton:

Centrus Energy Corp. (Centrus) has determined that the American Centrifuge area in Building 256 at the Allegany Ballistics Laboratory facility in Rocket Center, West Virginia, is no longer required. This area is managed by Alliant Techsystems, Inc. Accordingly, Centrus requests that the U.S. Nuclear Regulatory Commission conduct a close-out inspection and change the status for the facility to non-possessing.

Removal and appropriate disposition of all classified matter is expected to be completed by September 23, 2015. Copies of facility clean-up information, including clean-up plans and resulting data, are available at the Technology and Manufacturing Center in Oak Ridge, Tennessee, and can be provided upon request.

Questions regarding coordination of inspection activities should be addressed to Maurice R. Parks at (865) 241-7264.

Sincerely,

Steven A. Toelle
Director, Regulatory Affairs
