Division of Industrial and Medical Nuclear Safety  
Two White Flint North  
11545 Rockville Pike  
North Bethesda, MD 20852-2738

Dear Sir or Miss,

I am writing to request an amendment to mb microtec's distribution license #18-23712-01E.

First, please amend the maximum activities of Models 100/, 100/3, 100/4, and 100/5 from 25 mCi to 100 mCi. During a recent inspection of this license by the NRC, Todd Jackson of Region I and Hector Rodriguez of NRC Headquarters, suggested that this license be amended to remove the complexity. mb microtec commits to continue producing watches in compliance with SSD #NR-446-D-103-E.

By committing to produce all watches in compliance with the SSD, mb microtec requests the removal of references to 10 CFR 32.14 from its license. Upon approval of this amendment, no watches will be distributed under 32.14, and will only be distributed under 32.22.

Secondly, no distributions have been made from the North Tonawanda address since 2010. mb microtec has submitted a request to the State of New York to terminate its possession incident to distribution license, #C2641. Please remove the 908 Niagara Falls Blvd, North Tonawanda, NY address from this license (18-23712-01E).

Should you have any questions regarding this amendment, please contact Mr. Timothy Brandon at [tbrandon@diligistics.com](mailto:tbrandon@diligistics.com), or (603) 319-1921.

Sincerely,

Timothy Brandon  
RSO for mb microtec
