SUBJECT: MASTERWELD PRODUCTS, LLC, REQUEST FOR EXEMPT DISTRIBUTION
ANNUAL TRANSFER REPORT

Dear Mr. Reigner:

After carefully reviewing our records, it appears that we do not have record of your exempt distribution transfer report for the 2014 reporting period.

As you are authorized, under 10 CFR 40.52, to transfer certain products containing byproduct material to individuals exempt from regulatory requirements, you must abide by the reporting requirements for your license, which are listed in 10 CFR 40.53. These requirements include the provision that you submit an annual report to the NRC detailing transfers taking place during the previous calendar year.

Pursuant to 10 CFR 40.53, you must include the following information in your annual transfer reports:

- identification of the licensee, including the license number;
- indication that the products are transferred for use under 10 CFR 40.13(c), giving the specific paragraph designation, or equivalent regulations of an Agreement State;
- a description or identification of the type of each product and the model number(s), if applicable;
- for each type of source material in each type of product and each model number, if applicable, the total quantity of the source material; and
- the number of units of each type of product transferred, by model number, if applicable.

These reports do not need to list each individual transfer (e.g., by date or recipient) or each individual unit transferred (e.g., by serial number), but must list the total number of units of each device type or model transferred for each reporting period. Also, if no transfers take place during a given reporting period, you are still required to submit a report stating so explicitly.

J. Reigner
